

SAYYED MOHAMMAD SHOAIB

FULL-STACK JAVASCRIPT DEVELOPER | MERN | REACT | NODE.JS

Boisar, Maharashtra | +91 98908 97104 | mdshoaib0045@gmail.com

Portfolio: shoaib99.vercel.app | GitHub: github.com/shoaib9955 | LinkedIn: linkedin.com/in/mdshoaib45

PROFESSIONAL SUMMARY

Full-Stack JavaScript Developer with **7 months of internship experience** building React and Node.js applications. Built and deployed TaskFlow AI and PowerFitness, with hands-on experience in REST APIs, authentication, MongoDB, and AI API integration.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, JSX/TSX, Tailwind CSS, Context API, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC), bcrypt

Database & Storage: MongoDB, Mongoose, Firebase/Firestore, Cloudinary

AI & Integrations: Groq API, Google Gemini, AI API Integration, REST API Integration

Tools & Deployment: Git, GitHub, Postman, Vercel, npm

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | Dehix | Sep 2025 – Mar 2026 | Remote

- Built and maintained frontend and backend features for web applications, contributing across UI implementation, API integration, and application workflows.
- Implemented responsive and reusable UI components from product and UI/UX requirements, focusing on usability, consistency, and maintainable code.
- Integrated RESTful APIs and third-party services across frontend and backend workflows, connecting user-facing features with application data and server-side logic.
- Worked with application databases for data management, querying, and feature integration.
- Collaborated with UI/UX, backend, and blockchain teams to deliver features and contribute to end-to-end solutions.
- Debugged application issues and contributed to performance, testing, deployment, documentation, and development workflows.

PROJECTS

TaskFlow AI | React, Node.js, Express.js, MongoDB, Mongoose, JWT, Groq API, Cloudinary, Tailwind CSS

Live Demo: taskflow-shoaib.vercel.app | GitHub: github.com/shoaib9955/Taskflow-AI

- Built an AI-powered team operations and project management SaaS with authentication, role-based access control, workspaces, projects, tasks, comments, notifications, activity tracking, and file uploads.
- Implemented JWT authentication, HTTP-only cookie sessions, and role-based access control across 3 roles, protecting workspace and project resources.
- Developed REST APIs with search, filtering, sorting, pagination, file uploads, and Cloudinary integration for task and project workflows.
- Integrated Groq API for task generation, task descriptions, project summaries, and converting meeting notes into actionable tasks.

PowerFitness Gym Management | React, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, Tailwind CSS

Live Demo: powerfitnessfrontend.vercel.app | GitHub: github.com/shoaib9955/Powerfitnessfrontend

- Built a full-stack gym management system for member management, subscriptions, payment tracking, and day-to-day gym operations through an admin dashboard.
- Developed responsive React interfaces and integrated backend REST APIs with MongoDB for authentication, data management, and application workflows.

EDUCATION

Bachelor of Engineering in Computer Science Engineering | 2022 – 2026

St. John College of Engineering & Management, Palghar, Maharashtra | CGPA: 7.09 / 10

2026: Completed final-semester academic requirements and examinations (Apr–Jun 2026); subsequently focused on job preparation and independent full-stack project development.
